

DT-7000

H90 Series

Night Safe

Double metal gates ensure safety

Outstanding capacity and reliability

Advanced and secure solution

Easy deployment and maintenance

The H90/L is a night safe providing secure storage services through the provision of deposit package. It can be used by customers to store their currency, checks, documents, jewelries and other precious articles. It offers around-the-clock services in branches or at off-premises places such as airports, subway stations and shops.

H90 Series Night Safe

Features

Premier Security: Detecting sensor monitors deposit status in real time, excellent safety performance guarantees security of precious articles for customers.

Optimized Design: User-friendly operation interface and frame structure enable front, rear and side service access, improving user experience and service efficiency.
